

Claremont Unified School District District Advisory Committee on Quality Education Survey

The District Advisory Committee on Quality Education has spent the past year reviewing existing educational research concerning the characteristics of quality education. We have identified the following list of characteristics of quality education and would like your opinion on whether you think these characteristics are important, and if Claremont schools exhibit them. We hope to represent the community and can do so more accurately with your input.

The findings of this survey and possible recommendations will be presented to the School Board in June. Parents should complete one survey for each school that their children attend or have recently attended. Teachers and students should complete a survey for their current school. All individual results will remain confidential.

There will be a **Community Meeting** to discuss these educational issues on **Thursday, May 25th at 7 pm, at Oakmont Elementary School, 120 W. Green Street.**

You may complete the survey here and return it to any school or take it on-line at:
